

# Decoding Lighting

## Let's Talk Nonresidential Indoor Mandatory Lighting Controls for Building Inspectors

Join us for this FREE 90-minute interactive online event to discuss and decode Title 24 Part 6 nonresidential indoor mandatory lighting controls compliance triggers and paperwork under the 2013 standards.

Gina Rodda of Gabel & Associates, LLC, along with her guest speakers Kelly Cunningham and Tom Herbert of the California Lighting Technology Center, UC Davis, want to hear from YOU on nonresidential indoor mandatory lighting controls issues like:

- Concerns for 2013 energy standards
- Field inspection preparation
- Job aides available

**Let's talk about how to make your field inspection process faster, easier and more accurate.**

**Dates & Times:** 5 sessions currently offered, choose the one that works for you — *availability subject to enrollment levels:*

This program is funded by California utility customers under the auspices of the California Public Utilities Commission and in support of the California Energy Commission.

Free Online Discussion for Building Department Personnel

Not your typical webinar, this event is designed to both offer and gather information on technical aspects of the code, "best practices" developed by you and your building department, and the challenges you may face in the field as a building inspector.

Our technical experts will guide the discussion based on the answers you and your colleagues give to questions we'll ask you at registration.
