

# GET CERTIFIED!

*Training for Lighting Controls Acceptance Test Technicians*

**May 7 – 8, 2014 • SCE Energy Education Center in Irwindale, CA**

## **WHO SHOULD REGISTER?**

This course is designed for lighting professionals from commissioning and engineering firms, electrical contractors, and general electricians who are not certified CALCTP Installers.

## **HOW DO I APPLY?**

Visit **CALCTP.org** to submit a CALCTP-AT Technician application, and submit payment online or by mail.

## **COST: \$500**

The course fee includes materials, lab fees, and record keeping. Credit card payments may be submitted online. Checks are also accepted.

## **COURSE LOCATION:**

SCE Energy Education Center  
6090 N. Irwindale Avenue  
Irwindale, CA 91702

California's new Title 24 standards will require that certain lighting control devices be certified as properly installed and operational before occupancy permits are issued. The new standards also require that this verification process be performed by a trained and certified lighting controls acceptance test technician.

The California Advanced Lighting Controls Training Program (CALCTP) certifies acceptance test technicians and technician employers. CALCTP has designed this intensive, interactive one-week course for applicants who are: professional engineers, certified commissioning professionals, licensed electrical contractors, or general electricians who are not certified CALCTP Installers.

Participants will have the opportunity to share their recommendations and feedback, and they will come away with the training and tools they will need to successfully conduct and document acceptance tests required by the 2013 Title 24 standards.

**Wed, 5/07:** AT Part I and II, 8:30am–5:30pm

**Thu, 5/08:** AT Lab, 8:30am–12:30pm  
AT Certification Exam, 2:00–4:30pm
